**Amendments to the Claims:**

Please amend the claims as indicated in the marked-up version of the listing of claims presented below. This listing of claims replaces all prior versions and listings of claims in the present application.

**Listing of Claims**

1. (Currently amended) A centrifugal blower, comprising a centrifugal fan comprising:
  - a hub adapted for rotation about a central axis;
  - a first plurality of blades arranged about the central axis, wherein each of the blades defines
    - a leading edge;
    - a trailing edge;
    - a first side edge extending between the leading edge and the trailing edge, the first side edge being swept from the leading edge in a direction axially away from the leading edge and radially outward toward the trailing edge;
    - a second side edge extending between the leading edge and the trailing edge, a portion of the second side edge integral with at least a portion of the hub, the second side edge being swept from the leading edge in a direction axially away from the leading edge and radially outward toward the trailing edge;
    - an inlet radius defined as an outermost radius of the blade leading edge;
    - a shroud integral with at least a portion of one of the first and second side edges of the first plurality of blades;
